# Codejay - Code Generator Tool For ASP, Hits: 1,760 COLDFUSION, ASP.NET, PHP

**Description:** With the implementation of Codejay, these issues are no longer the drain on company sources they once were. Codejay's Web developing kit does all the "dirty" work for web developers, and all the developer has to do is create and update the applicable databases (SQL Server ®, MS Access®, MySql ®, etc.) Create web administration entries for database driven web sites. Create web reports. Choose among ASP PHP COLDFUSION ASP.NET as your programming language without writing a single line of source code.
