## Internet Research Toolbar

Hits: 475

**Description:** Why risk losing the great information you find on the Web when you can Save the Web with IRT. IRT provides a built-in way for Internet Explorer to save, organize and manage Web content. It's like an enhanced Google just for your personal slice of the Web. Search what you have saved by whole or partial words, project, category, record type, date-saved, or by combined criteria. Also create bibliographic citations for online information.
