**Description:** ProfitPal is a unique affiliate cash payment system that enables you to send INSTANT cash payments via PayPal. It supports 1st and 2nd tiers and can even split a payment between you and a business partner. This script does not use "return payment loops" and has been designed with the marketer in mind. It can deliver most types of intangible goods and comes with a whole host of advanced features. Stealth encryption (using unique algorithms) over ssl also ensures it's both safe to use and secure!

Requires:PHP4.0.6+/MySQL/cURL/Mcrypt/ionCube
