Quizgame

Hits: 1,208

Description: This program allows you to setup a quiz game easily by using forms. The program grades the player's answers and keeps scores. Has forms for "Multiple Choice" , "Fill In" and "Yes No" questions. The program keeps all the player's scores and tells them when they have won a prize. You can set how many prizes to give away and at what score they will be given away. The program keeps track of how many people are playing the game; the name and password of the winners and what prize they have won.
