Complete Internet Cleanup Lite

Hits: 1,141

Description: Complete Internet Cleanup is a multiple award-winning utility to delete your Internet tracks. All your Internet traces are logged to index.dat files and deleting Cache, Cookies and History does not delete index.dat files. Complete Internet Cleanup deletes index.dat files.

Furthermore Complete Internet Cleanup removes auto complete web forms (user names, passwords, etc.), typed URLs and Internet Explorer plugins.

Complete Internet Cleanup is also a utility to help running your PC faster by cleaning Windows Temp directory, emptying Recycle Bin and clearing Recent Documents folder.

Complete Internet Cleanup runs on Windows 98/ME/2000/XP and designed for Microsoft Internet Explorer 5.0 or later.

This lite version contains all the features of the pro version with the exception of the index.dat viewer.
