GalleryMaker

Hits: 1,982

Description: GalleryMaker allows you to automate thumbnail gallery creation. Main features include: Creates a directory under your html directory with a name you specify, Thumbnails the number of random images, Creates an index.html in the directory with templates, Copies the thumbnails and banners and anything else you specified into the directory it created, Adds all reciprocal links including their buttons automatically to the gallery, Emails you the url to the gallery created, and Submits the gallery to 30 TGP's automatically. This script can also be crontabbed to run automatically with no other input from you or can be run from a telnet session.

Resource Specifications
