# MassSites

Hits: 1,072

**Description:** This script Mass produces Websites and submits them to the major Search Engines all in one shot. Features include: Grabs a random logo, background, and buttons and uses them as the basis of the look of all pages, The images always maintain the same background color and same look and feel as the other images used, Grabs a site template at random and relaces variables to customize the webpages created, Grabs any content pages and images you have in the content dir and adds them to each site automatically, Automatically submits each site created to the major Search Engines, Script emails you the name of the site created and the exact URL of that site as well as output from Search Engines submissions, and what date and time the site was created and submitted, and more.

## Resource Specifications

<b>Price:</b>	\$225
<b>Date Added:</b>	Nov 12th, 1999
<b>Last Updated:</b>	Aug 27th, 2003

**Average Visitor Rating:**  **1.00** (out of 5)  
Number of Ratings: 2 Votes

**Average Member Rating:**  **0.00** (out of 5)  
Number of Reviews: 0 Reviews
