By far the best PH P email marketing app ive used, Dec 29th, 2003

After using about 5 different email marketing applications for our various websites, SendStudio seems to have hit the nail on the head.

Easy install process, and it works very well. Recommended to anyone that needs a mailing list manager / email marketing suite.

Better than OEMP!!, Feb 1st, 2006

Reviewed By: mpc2000

I was an avid OEMP user for 2 years but I got fed up with their lack of support and limited features, so I switched to Send studio on a recomendation from a fellow web designer.

i have been using it for 8 months and have nothing but good praise for the product. Support was great, and i get updates for 12 months.

Highly recomended, and this is coming from someone who demands alot from software.

This is the second Interspire product that i've used and it's also fantastic and easy to use. I use it to manage my companies mailing list and it's been great to work with.

I spent a few weeks sifting through various different email marketing tools and eventually decided on the SendStudio product which i'm glad I did. Everything has worked well so far and i'm pleased with the way Interspire handles business.
