Car, Bike, Caravan / RV Scripts

Hits: 12,494

Description: Motor Script for any motor dealer allows you to boast a professional motoring sales website online.

Using language files display the site in any language.

List inventory with up to 10 images. Thumbs created on the fly including a slideshow for users. Oversized images are auto-resized.

Add and edit manufacturers, fuel types and features.

Switchable functions include:

Featured vehicle

Vehicles to Clear

Search Facility

Page Display Images

Meta tags / page titles automatically created for each auto listing page. Your own meta tags can be entered for other pages through Admin. All dynamic pages have static addresses for search engine visibility.

Site template easy to adjust.

Colours and fonts are controlled by a CSS file.

Images uploaded to the site via ftp (not database which slows site down) through Admin panel.

Don't forget to read our testimonials from live clients..

Check the Demos today in English/Spanish/French/Italian & German!!
