## ViSE - Virtual Search Engine

Hits: 1,358

**Description:** ViSE (Virtual Search Engine) is a remotely hosted service that lets you integrate seamlessly the Firstbookmark.com XML Pay Per Click Search Results into your site. The service is completely template driven and you have almost 100% control over the layout of your search result pages. No programming skills required to install, only HTML. You get paid for each click on a search result. Incredible revenue potential.
