Free Professional Forums

Hits: 1,708

Description: A terrific interactive webtool, the Message Forum service allows you and your visitors to communicate by posting messages for each other. Lots of great extras including smilies, adding custom images, and more.

Feature: No banner No Pop Up

- Customizable Look - Set up the Forum with your page colors and images
- IP Banning - Ban the IP Address of unwanted or problem causing posters
- Multiple Layouts - Choose from one of many layout formats
- Pages Format - Optionally display messages over multiple pages
- Customize navigation bar - Edit colors and text
- Password Protection - Require a password for access
- Optional Read-Only Access - Require a password to post
- Display Statistics - View usage statistics
- Add Smilies - Add over 600 smilies to your message forum entries
- Allow Images - Allow visitors to post their own images and HTML
- Easy installation - Just copy and paste our code onto your webpage
