MIDAS

Hits: 1,945

Description: MIDAS is a cross platform Monitoring and NIDS server. The goal of this project is to build a robust and complete network/system monitoring suite that is capable of scaling to very large networks.

With the new 2.2a version, we have created a client for monitoring Win32 based systems, but the core of the application is still made for *NIX systems.

Resource Specifications

Version:	2.2e
Platform(s):	*NIX, Win32
Price:	MIT License
Date Added:	Dec 3rd, 2003
Last Updated:	Mar 5th, 2004
