PriadoAlias

Hits: 1,485

Description: Create links between aliases (that you make up) and real URL's. All aliases can be made using any URL that doesn't already exist on your server and can point to any real site. They can be either normal redirects which just send the visitor to the target URL or masked/proxied which only shows the alias URL and completely hides the target URL from the visitor.

Resource Specifications

Version:	1.0
Platform(s):	PHP
Price:	9.95
Date Added:	Dec 8th, 2003
Last Updated:	Dec 9th, 2003

Average Visitor Rating:  **3.33** (out of 5)
