# ROPE

Hits: 1,070

**Description:** The purpose of ROPE is to make easier and more flexible to separate the static and dynamic parts of the websites and so the work of the coder and the designer. With its help the large 'document here' printings in PHP routines can be avoided which are confusing the original concept of program and makes impossible the flexible changing of the design and the code independently of each other.

Truly ROPE is a simple text processor which inserts, replaces and ignores blocks of text.

## Resource Specifications

<b>Version:</b>	2.12
<b>Platform(s):</b>	PHP
<b>Price:</b>	GPL
<b>Date Added:</b>	Dec 10th, 2003
<b>Last Updated:</b>	Dec 18th, 2003
