## InsPanel - Hosting Control Panel for Windows

Hits: 7,860

**Description:** A web-based Hosting Control Panel for Windows servers, InsPanel not only save you countless hours of server administration time, but also gives end-users the control they need to perform routine administration tasks for their websites. the InsPanel supports MySQL, MS SQL, MailEnable, Merak Mail, MDaemon Mail Server, XMail, ColdFusion, BIND DNS and a host of other third-party applications. It integrates with Directl's domain reseller program to bring you \$6.49 domains without any purchase commitments. The latest version carries support for both local and distributed mail and dns servers.

Excellent control panel for windows server . I have using your panel since 1 year , great work .But you need to add more 3rd party components like aspupload and facility to register dll ...

Good Job

### **Best windows control panel**, Mar 24th, 2005

This is really the best control panel we have used after trying 2 others .We have been using since 1 year ,we found it very nice & easy use software .The most Important thing is their FAST effective support .All emails answered in less than 2 hours .We enjoyed dealing with them
