CodeThatShoppingCart

Hits: 8,967

Description: CodeThatShoppingCart enables users to orgnize the products they have selected before the actuals order placed. CodeThatShoppingCart has several sections: User's ShoppingCart, Product Catalog, CheckOut page. There's also advanced admin area for shopping cart maintainer to work with the content of the cart. The installation of the cart is an instant and done through the installation wizard. CodeThatShoppingCart can be easily customized and integrated into any site with the PHP and MySQL installed. Cart offers SSL support, e-mail notification system and many other advanced features. Personal edition doesn't support categories for the products (all the products belong to the same category).
