# ASP Content Management

Hits: 47,054

**Description:** Content management solution based on IIS, ASP, and MS Access. Add, edit, and update all pages with a web-based WYSIWYG page editor. Edit site colors, titles, and more with the web-based administrator. Very easy to setup and use. Asp Content Management is open-source and released under the GPL license. A version using the MySQL database is also available.
