# Blogamp

Hits: 3,738

**Description:** Blogamp is a dynamic, web-based song management and delivery interface for music artists, talk radio, school, and bloggers who wish to stream and conveniently manage their own audio on the web. K-AMP's Media Manager which is accessed thru a web browser, requires little effort to customize, maintain and update. Blogamp lets subscribers manage their own audio-on-demand using the Blogamp's Media and Podcasting Manager, which can be easily accessed and administered through a web browser without the need for special software or technical knowledge.
