Xtensible Shopping Bag

Hits: 32,187

Description: Xtensible Shopping Bag (XSB), which besides storing standard properties (product id, product name, price, quantity) allows you to add as many custom properties as you like. In addition, it contains more high-tech: internally, it is based on XML - therefore scaling to large numbers of users as Session state is stored as XML data, not as object.

Resource Specifications

Version:	1.0
Platform(s):	Win NT
Price:	Free
Date Added:	May 18th, 2000
