Reviews for Easy File Manager

Disappointed, Apr 30th, 2007

Reviewed By: gilman01

I was really disappointed in my overall experience with this product. First it took almost a week to get the product and that was after I had contacted Share-It by telephone (they never did respond by email). After finally getting the product and installing it I was faced with program errors. I completed the providers online form several times and still no response. So I have a \$25 piece of useless code. Sad as it looked like it was exactly what I needed.
