Linking Reporter

Hits: 1,084

Description: The linkage report script is a small utility script that allows you to query the major search engines to ascertain how many other Websites are linking to your website. This is a good indication as to the popularity of your Website as well of an indication as to the type of Websites that align themselves with your site. Successful search engine listings come about not just your WebPages content they also take into consideration the amount of other websites that link to your Website.

Resource Specifications

Version:	3.0
