# Magia ChainLink

Hits: 1,353

**Description:** Magia ChainLink is a full-featured cash register (Point of Sale) application designed for low-volume locations. By using ChainLink a company with multiple locations can have access to real-time sales and inventory information. Features include: the cash register, layaways, deliveries, product transfers between locations, and extensive reports. Magia ChainLink is completely integrated with Magia Retailer, Magia Warehouse, and Magia Accountant. ChainLink is part of the Magia Business Application Suite.
