Monitor Adsense

Hits: 5,479

Description: Monitor adsense with this free adsense tracking script. Now you can track your performance throughout the day, receive email updates and store the information in a database.

It's plain text, so you can see what is really going on behind the scenes! No need to trust your account information with a program you don't understand.

Also includes html to read your stats from the database and a SMS utility.
