WebMaster FTP

Hits: 1,413

Description: FTP program designed for webmasters whose sites are on UNIX/Linux/BSD hosts. Main task of Webmaster FTP is to reduce errors and time required to perform your web site management tasks via FTP. Having everything that you expect from an FTP tool for webmasters, the program also has some unique features like automatic setting of the correct file permissions, Explorer-style left folder tree, support for UNIX and Apache file types, resume transfers, etc.
