STphp EasyNews PRO

Hits: 8,023

Description: Ideal for websites about news or with a newsline. You can edit the news page template, add/delete/edit news, easy install file, encrypted posting password plus a lot more features such as optional BBcode parsing and Approve of posts before submitting them. No SQL database required, this is pure php. An online demo is on the STphp website. Main features include an archive system, uploads manager, post management, user management, template system, extra admin options and a lot more such as a great new (and easy) admin control panel design.
