HeadCount

Hits: 1,342

Description: HeadCount lets teachers log in with how many of their students will be attending Lunch or a field trip, or just attendance numbers. Originally written for a school that needed to tally up how many students would be attending Lunch, it could easily be used to count how many guests each employee will be bringing to a company picnic, how many guests will be attending a wedding, etc since the labels "Teacher," "Class," and "Number of students" can all be changed.

Resource Specifications

Version:	1.0.1
Platform(s):	linux, windows, freebsd, sun
Price:	Free (Linkware)
Date Added:	Feb 7th, 2004
Last Updated:	Sep 4th, 2007
Author:	Scripts for Educators
