Newsletter Manager Pro

Hits: 8,946

Description: Easy to use, loaded with advanced features, newsletter publishing software built in ASP to manage mailing lists and subscribers, compose and send newsletters and view reports. Featuring a top HTML editor, high-end newsletter personalization, merging, html-text-multipart newsletters, attachments, URL sending, clicks and views reports, double opt-in subscriber confirmation system, error control, opt-in forms wizard, filtered mailings, export to XL and more. Works with all major e-mail components and MS Exchange server. MSAccess database included, SQLServer and mySQL ready. Suitable for heavy loads. Bounced processing and scheduler components as add-ons. Can be used even without a web site and can be easily integrated with your web site. Friendly for beginners as well as professional users who want to run their own e-mail marketing campaigns. Administration is done with your browser. Admin panel in several languages. Detailed manuals are included. One time license fee. Demo available.
