# Master Webpage Mailer

Hits: 2,054

**Description:** Give your visitors the opportunity to mail the contents of your web page to their friends or themselves. Master Webpage Mailer allows you to determine which parts of your web page get mailed. You determine the text formatting of the resulting email. Master Webpage Mailer even lets you send content in the email which is not visible on the browser version of the web page. All without maintaining an extra copy of your content.
