Quotesie

Hits: 1,619

Description: Quotesie lets you set up a list of random quotes or sayings to be displayed on your site. If you can use SSI (server-side includes) on your site, then Quotesie will work with them. If you can't, Quotesie also supports using Javascript to display the random quotes.

The admin interface will let you add, edit, or delete any of the quotes in your quotes file.

This is mainly just a fun thing to add to your website to give it some "personality." You can add quotes from famous people, Bible or other scriptural verses, random jokes, "lucky numbers," "fortunes" -- let your imagination run wild. You can even use HTML in your quotes.
