uReserve Online Resource Scheduling System

Hits: 2,239

Description: uReserve is an online resource scheduling system that allows members in your organization to reserve virtually any type of resource such as conference rooms, computer systems, electronic equipment, company cars, and more!

User-friendly, web-based interfaces make it easy for people to check the availability of resources and reserve the resources online.

Now available with Dual Resource Scheduling.

This edition of uReserve will allow two different resources to be scheduled together from just one reservation form. Checks the availability of both selected resources before accepting a reservation.
