ChatXM

Hits: 1,402

Description: Add an exciting real-time message board to your site with ChatXM. It will have visitors to your site coming back again and again. And that means more sales and more traffic for you. The client has absolutely nothing to install or download. It all works seamlessly within your client's browser.

Our standard ChatXM product can be further customized to fit your site's needs and requirements. If this is something you would like to explore, please contact us for more information and quotes. However, customization is not required and Chat XM will work out-of-the-box as is. Give your visitors something to talk about.
