# hwdeGALLERY

Hits: 3,707

**Description:** hwdeGALLERY is a small script that displays various picture series. With a given filename the script knows how many pictures in your gallery are and displays them in a Overview. Then you can click on each picture to enlarge it or browse through the pictures by using 'Back' and 'Forward' Buttons.

The layout is completely adjustable because the script works with template files. Use this script in almost any design.

## Resource Specifications
