Online Event Management and Calendar Hosting Hits: 1,524

Description: Events may reserve locations, equipment, and include setup instructions. Great for small organizations, schools, groups, or companies that want to display events online. Very easy interface with unlimited users, events, and groups allowed! Any member of your organization may request an event while the 'Event Manager' controls what gets posted on the Internet. Many views and reports included, calendar portion is designed to look like your website. Data backups are included, this is a service so there is nothing to download or install.
