ImpAKT for CF

Hits: 1,729

Description: For the Dreamweaver MX developers who need to implement complex and interactive dynamic websites, ImpAKT 2 tNG is a tool for database application logic unified management. Unlike standard Dreamweaver MX web development, that requires manual code modification to implement the application logic, our product relies on tNG (InterAKT Transaction Engine), allowing software triggers generation and editing using intuitive GUIs to increase productivity and avoid error prone manual coding. ImpAKT supports ColdFusion, ASP and PHP server models.

Resource Specifications	
Version:	3.6.0
Platform(s):	windows, osx
Price:	\$100
Date Added:	Mar 10th, 2004
Last Updated:	Dec 15th, 2005
