Ad Manager Pro

Hits: 35,623

Description: Ad Manager Pro is the most complete ad management solution available. You can use it to manage ads on your site(s), you also can sell clicks, impressions and/or days range to advertisers and purchase clicks and/or impressions from publishers. Features of this quality system may bring you an interesting income.

You and your users have a real-time statistic for each ad (hourly, daily, monthly statistic), also a graphical statistic is available. Advertisers and publishers can order daily email reports. Each ad may be used in multiple campaigns, each campaign has its own statistic and configuration.

Support for classic banners (gif, jpg, png, swf), plain text/html ads, ads from templates (Google AdWords style). You can display ads on pages or in popup consoles. There are many ways to show ads on pages - javascript, iframe, php include command. It lets you place the ads to any webpage.

Option to load a new ad after a given number of seconds. Ads can be targeted by countries,days,hours.

Ad Manager Pro, Sep 29th, 2006

Reviewed By: CindyZ

This is one great script. We started with the Link Up Gold, and also added this script to the package. It is much easier to use than some of the other ads scripts we have tried to use. This gives detailed stats, and is very easy to incorporate with Link Up Gold.

A payment section of the script makes it quite simple to keep track of all of the ads and when they are due, and what traffic each ad has generated for your advertisers.

Prompt and courteous service! Thanks so much Richard!!!!

Great app and superb support, Dec 4th, 2006

I've gone through many demos of other system like this one and have to say that it was the best choice I made for a long time. The system does exactly as described but that is not all. If there is something that is not the way you want it SUPPORT will get it sorted in no time working with you on the problem day and night to offer the best possible solution and keep your system up and running. System on line @ www.networkpl.com

phpwebscripts.com rocks!, Dec 9th, 2006

Reviewed By: TXmusic

I have tried over a dozen database management scripts, and Link Up Gold has been the best by far. It lets users rate and post comments on links, and has enabled me to create the TEXAS MUSIC SEARCH ENGINE. I hope to make a profit by using its partner script, Ad Manager Pro, in unison with it. The webmaster in charge of this site is awesome! He has already done several customizations for me and has been there to help any time I needed him.

Versitale software, Jan 9th, 2007

Reviewed By: Insiston

Ad Manager Pro integrated beautifully with my classified software which is based on auto-generated pages, cgi and php. The kind of integration most in the classified world are looking for, as well as on my other html sites. Admin and member panels are fully customizable. This program outperformed expectations, as did the support behind it, which is the best I've ever experience bar none. Highly recommended for multiple sites and multiple configurations. extremely pleased with purchase!
