CGIMachine - Pollmaster

Hits: 3,221

Description: Create your own online polls with graphical evaluation with CGIMachine-Pollmaster. Use any HTML form to design your questions. All stored answers can be viewed directly with the browser in your HTML documents through configurable graphical charts. It features man different styles for your individual needs (e.g. bars, lines or pies). All results are saved with Date/Time and IP-adress in text files which allows you to use the data in any other software for further analysis. The graphical charts can be adapted to your personal needs (e.g. colors, size, legend, marks, borders, 3d, rotation, zoom, ..etc.) CGIMachine - Pollmaster is available in two versions: Light Version (\$39) that can handle 200 answers per question and Unlimited Version (\$59) that can handle an unlimited number of answers per question.
