ReachOn.com Email Marketing System Hits: 1,845

Description: We have been named the most innovative opt in email marketing system because we are able to generate the ability for you to send emails to your email lists, while generating comprehensive reports so you know if your marketing promotions are working.

There are no limits on sends and EVERY customer has their own dedicated server.

What can we do for you via reachon.com?

- Your own server
- send emails and know when the emails have been opened
- the system manages your unsubscribes, so you do not get accused of spamming
- you can see customers LIVE as they log on to your site through a special ReachOn viewer
- newsletter templates to fill in and send to clients
- Duplicate filtering
- email opens extraction to better target your lists
- we can also additional reporting capabilities based on your needs
- a national unsubscribe database that filters out emails
- and more

Send your email campaigns, online newsletters, email advertisements, through Reachon.com and receive real time reports detailing when each email is opened.

Know the percentage of opened emails with a click of a button. Reachon also manages and automatically deletes your unsubscribes from EVERY campaign as part of its spam policy. No need to read instructions it takes only 3 clicks.

The eMail service is for small and large businesses who want to know if their online marketing programs are working.

Please log in to reachon.com to test the service for FREE to see how it works. Click on Demo on the top right hand corner on the home page.
