Hits: 4,364

Description: A script for managing weblogs and web-sites, for use by individuals or by groups collaboratively running a site. Allows management of a web-site entirely from the web like a wiki. Trivially create, edit, move and delete pages, and create weblogs with Atom feeds. If anyone in a group can update a site from any browser, anywhere, it is likely to be kept up-to-date.

Resource Specifications

Version:	1.2
