Description: This is the only link trading system you will ever need. It is designed to send the same amount of visitors to your affiliates as they send you. If they send you 10 visitors, their link is shown on your website until you send them 10 visitors back. Once you send them the 10 visitors back their link is taken down until they send you another visitor. Some other features include: A color coded admin panel to easily browse accounts, visitor fraud protection, add/subtract hits from an account, higher traffic trades are shown at the top of the list, the entire script is the size of a small image so it won't bog down your sites resources, and much more!

Resource Specifications

Version:	1.0
