## Windows 98SE boot disks

Hits: 1,200

**Description:** This zip file includes the basics to boot a machine to Win98SE. It also includes needed files to allow for CD-ROM and installs a RAMD drive. Included are 24 files including fdisk, format, io.sys, autoexec.bat, config.sys, extract, command.com and msdos.sys. After un-zipping the files, simply copy them to a floppy disk or CD-ROM and reboot.

Also available for free download are the .zip files to create DOS 6.22 and Windows 95B boot disks.
