Users Online Count (SQL Version)

Hits: 4,990

Description: This is a quick and easy users online script. Just include the file on the page and it will add the user to the online list. Lets you specify how many minutes to keep a user online without them clicking another page before removing them. Has the option to surpress the count so you can include this on many pages but only display the count on selected pages. Only outputs the number so you have flexibilty to format the number with any words or font changes you want. Also has an identical version that uses a text file to store users.

Resource Specifications

Version:	1.0
