bSpeak Threaded Messageboard

Hits: 2,886

Description: This messageboard software is easy to install, easy to configure, and easy to integrate into your website, yet it's full-featured and robust, using PHP and MySQL for blazing fast performance. The threaded display format (instead of the commonly used flat format) is more conducive to fast-paced, lively discussions which can do wonders in helping to create a "community" feeling on your website! Check out the features and try the demo messageboard and see why bSpeak is the right messageboard software for your website!
