# PSTCompactor (Professional Edition)

Hits: 2,224

**Description:** Reduces Microsoft Outlook PST file sizes (email) at home or across the Corporate network. Compress (zip) attachments, automate compaction, etc.

Its Rules-based engine enables selective message processing, simplifying management and implementation of Enterprise Email Policies. Manages PSTs across the network. Does not require changes to your Exchange server or client PC's. HOME USER version also available.

## Resource Specifications

<b>Version:</b>	2.0
<b>Platform(s):</b>	windows
