Counter and Referer Script

Hits: 3,504

Description: This Counter and Referrer Script provides two options. On the one hand you can count the page visits and on the other hand you can log the extern referers. The page visits can be displayed as image or text. When you log the referrer (extern referring pages), you have the overlook about the referring pages and the number of visits from these pages. All data are stored within flat text files, no databases are needed. You can include the counter with SSI and PHP. You are also free to create your own number images.
