Online Classifieds Script

Hits: 4,811

Description: This classifieds script is an easy way to set up a classified ads website; it is designed in such a way that it is extremely easy to change the look and feel of your website. You can design your pages around the functionality of the application. Although this script does give you a lot of control over the look and feel of the site, it lacks an interface for advanced administration features. However all the administration can be done through an interface such as phpMyAdmin. If you know how to use phpMyAdmin or a similar application and are familiar with relational databases, it should be really easy to administer categories and users, etc.

Resource Specifications

Version:	1.0
Platform(s):	Unix-based web server Linux, Solaris,
Price:	29.95
Date Added:	May 7th, 2004
Last Updated:	May 11th, 2004

Average Visitor Rating:  **2.33** (out of 5)

Number of Ratings: 3 Votes

Average Member Rating:  **0.00** (out of 5)

Number of Reviews: 0 Reviews
