eLouai's Force Download Script

Hits: 10,821

Description: An easy to use force file download script, especially useful for sites that have large media files and would like people to download the files locally instead of playing them remotely off the web server. Usage:
<http://www.yoursite.com/force-download.php?file=filepath>

Thank you! This works perfectly, and it just adds that little nuance to my web page... which gives people just one less thing to figure out.

(This is my first review here. So, I hope the rating scale has 5 being highest)
