This, is one of the best services around I must say. I have tried about 20 different imange hosting companies trying to find one that suited my needs perfectly, well I found it. With it's 100 MB diskspace & photo ablums, html editing, image folders, Direct Image Linking & much much more. I host many imanges there about 250 or more right now They have great upgrading packages and many features. They also have top support which is amazingly fast. I would say right now it is one of the best imange hosting compines around.. And with over 20,000 members you know that it must be good !
