MX Newsletter – manage e-mail campaigns

Hits: 3,989

Description: For the Dreamweaver programmers wanting to create a web based application to send HTML and text e-mail campaigns to registered users, MX Newsletter is the working solution. As the application template is built using Dreamweaver and the InterAKT MX Kollection tools, you will be able to customize it to your needs in no time. Unlike other newsletter scripts that are not designed for reusability, our product is an application template created for Dreamweaver and MX Kollection, that allows you to change most of the newsletter registration fields in a visual way, without manual code modifications. Features: --Easy to Customize with Dreamweaver and MX Kollection; --Wizard for Fast Newsletter Creation; --Rock Solid E-Mail Sending Process; --Visual Editing With KHTML3; --Saving Time by Using Mail Templates; --Reports About the Newsletter impact; --Topic/Topic Groups; --Tight integration with Dreamweaver MX and the MX Kollection; --LAMP/WIMP compatible. MX Newsletter currently supports: PHP_ADODB.

Resource Specifications

Version:	1.0.1
Platform(s):	windows, osx
Price:	\$129
Date Added:	Jun 1st, 2004
Last Updated:	Sep 6th, 2005
Author:	InterAKT Online

Average Visitor Rating:  **3.41** (out of 5)

Number of Ratings: 17 Votes

Average Member Rating:  **0.00** (out of 5)
