# CFMMaker

Hits: 1,841

**Description:** CFMMaker is a powerful yet easy-to-use code generator that creates a full set of CFM (ColdFusion templates) quickly from your Data Source. Supported databases includes Microsoft Access, Microsoft SQL Server, Oracle or any database with ADO or ODBC connectivity.

Using the generated CFM, users can view, edit, search, add and delete records in the database easily on the Web. Generated codes are clean and easy-to-customize. With CFMMaker, ColdFusion developers can build Web applications much faster than ever before.
