PHPMyCart Shopping Cart

Hits: 8,565

Description: PHPMyCart is an affordable and powerful shopping cart solution with the integrated PayPal, iBill gateways and manual (offline) credit card processing. The script has an easy-to-use web interface with a template-based storefront (fully customizable design & layout), unlimited number of products and categories, built-in template editor, mailing list, news management, different methods of delivery, sales analysis and tracking, customizable localization (measurement units, currency, states etc), "What's New" list, Wish list, "Top selling products", export orders to MS Excel files and many other useful features. No programming required to setup and customize PHPMyCart. Instant download and FREE installation included.

Live demo is available on our website, where you can try our shopping cart and make sure that it perfectly meets your needs.

I am in love with PHPmyCart, Dec 13th, 2004

Reviewed By: MichaelSherov

I am in love with PHPmyCart. Never have I seen such a robust, yet compact shopping cart solution. The templating system is fantastic, and I was able to integrate it into my site in almost no time at all! I was even able to modify the code quickly and easily since it is well written and simple.

This script is very good, Mar 25th, 2005

Reviewed By: PierreCamroux

I was shopping around for a better shopping cart solution for my website when I found PHPMyCart. This script is very good and has all the features I need for my business. More over it's simple, easy to use and what is the most important, the support system for this shopping cart is the best I have come across.

Great Value and Support, Oct 4th, 2005

Reviewed By: saunders

The PHPCart is is extremely well priced and includes that script we all forgot we would need; the Affiliate Shop. I notified support requesting installation and found my site up and running 24 hours later! They even gave me some tips to make my primary website work properly. This is a great product that is supported by professionals.
